ABOUT ME

Passionate Frontend Web Developer with 7+ years of experience in building modern, responsive, and user-centric web applications. Skilled in enhancing UI/UX quality and delivering scalable frontend solutions using React, Angular, and modern CSS frameworks. Adept at turning complex designs into clean, efficient code while ensuring high performance and cross-platform consistency. Dedicated to leveraging technology to build impactful, design-driven web interfaces and contribute to business growth through continuous innovation.

EXPERIENCE

Technical Lead – UI/Frontend Developer

Royal Cyber Private Limited

📅 Dec 2021 – Jun 2025

📍 Bangalore, India (Remote)

- Developed innovative and responsive user interfaces for large-scale enterprise applications such as AMEX Bahrain, CMS Vendor Management and Optimizely Fortify, improving performance and user engagement.
- Resolved UI/UX issues across devices to ensure seamless cross-platform compatibility, resulting in a consistent experience for mobile, tablet, and desktop users.
- Customized and extended Bootstrap, Tailwind CSS, and Material-UI frameworks to align with global brand standards and enhance design scalability.
- Built and reused common UI components, reducing redundancy and accelerating development cycles across projects.
- Translated interactive Figma/Adobe XD prototypes into polished, production-ready interfaces, improving delivery speed and client satisfaction
